

I am strongly voicing my opinion to the FCC to reject NAB's petition 04-160 and continue supporting XM Radio ability to provide the kind of programing that I demand and pay for, especially the traffic and weather channels. Not only are these channels an advantage to my daily schedule it may save my life one of these days. To provide me instant un-interrupted crisis information is worth it's weight in gold. This is a great opportunity to communicate to the public let's not waste all the benefits.
